

Duette® Shades

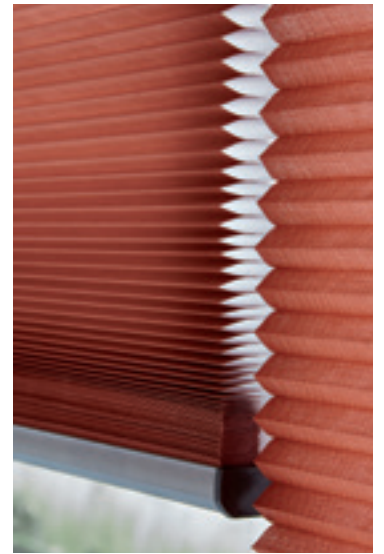

Filtering light and insulating your home all year round

Luxaflex®

Designed by Luxaflex®. Inspired by you.

Duette® Shades are perfectly suitable for the office, giving it a warm and stylish look.

Duette® Shades

An extensive choice of fabrics to control light and privacy as desired

Duette® Shades are available in a wide assortment of beautiful fabrics, rich structures and colours in three transparencies. They give beautiful pleat pattern to windows of various shapes.

There are three pleat widths available, each best suitable for a specific window size.

**“Both
colour and
light control
are equally
important
to me”**

Special

operating options

The revolutionary Luxaflex® SmartCord® operating system uses a retractable cord mechanism, is simple to operate and designed to provide optimal comfort.

The LiteRise® operating system is cordless and easy to operate via the bottom rail. You can position it at any height you like.

LiteRise® operating system

TruFit™

The Luxaflex® TruFit™ system provides an elegant solution of installing to your window frame without drilling or screwing. Perfect for tilt & turn windows, glazed doors

and conservatories. Practical and attractive with the benefits of easy installation and convenient operation. The elimination of lift cords means increased safety for children.

Sustainable fabric

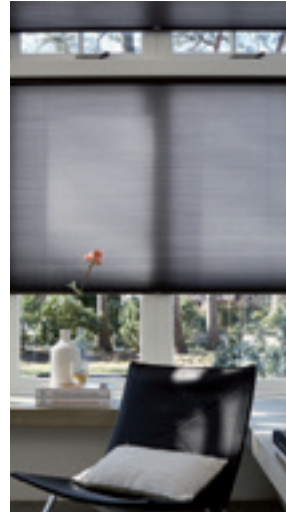

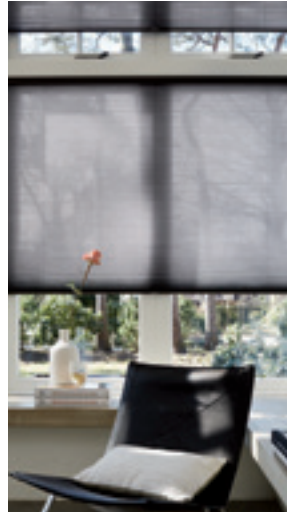

Sustainability was a key factor in the production of this collection. Luxaflex® is contributing to a sustainable and healthy environment by the careful selection of raw materials and method of production, as well as re-using fabrics whenever possible. The Eternity fabric, which is made from 40% polyester waste, accentuates this. Available in a 25 mm pleat width.

Colour coordination

The Duettes® Batiste fabric allows you to hang the same colour in all three transparencies. Depending on the level of privacy that you desire and the amount of incoming light you want, you can choose a different transparency in every room.

**“Not just
beauty,
but also
comfort
in both
summer and
winter”**

Energy savings

& acoustic properties

Duette® Shades are in the highest energy-saving categories of Luxaflex® and bear A to AAA labels.

Duette® Shades insulate in the summer and the winter. The still air layer in the cell works like an insulating blanket. The three still air layers of the cell-in-cell Architella® construction offer even better insulation.

Most of the heat lost in houses is through the windows, even when double glazed. Duette® Shades offer a unique combination: energy-saving window coverings that add atmosphere to the home at the same time. Furthermore they tangibly improve the acoustics in a room.

For truly exceptional, fully **customised** and reliable window coverings, Luxaflex® is the perfect choice.

With over 60 years' experience, Luxaflex® is committed to providing you with an **unrivalled** selection of products, fabrics, materials and colours for your **comfort** and **pleasure**. All covered by a **five-year guarantee**.

Designed by Luxaflex®. Inspired by you.

To ensure that your experience with Luxaflex® is the very best it can be, our products are sold by professionally trained dealers. Our experts will answer your questions, provide home measuring and fitting services, and configure your custom product to your exact specifications.
