

PowerView® Automation

Smart shades that simplify your life

Perfect lighting, energy efficiency, everyday convenience - it's all delivered automatically with PowerView® Automation.

Key benefits

Precise operation

PowerView® Automation offers precise control for a variety of different Luxaflex® window coverings whether raising, lowering, tilting and turning.

Flexible schedules

With the PowerView® App, you can quickly create customised scenes that control all the shades in your home to operate together, or in any combination you desire.

Energy efficient

Easily link schedules to sunrise and sunset times calculated by the PowerView® App to control solar energy throughout the seasons or wake with the sun.

Secure

Adjust shades while you are away via the RemoteConnect feature on your smartphone or tablet and protect your homes privacy.

Child friendly

Simple, battery-powered and cord-free operation is aesthetically pleasing and safer for children and pets.

Diverse

With the widest array of innovative styles, colours and fabrics in the industry, your motorised window coverings are as beautiful as they are intelligent.

Battery powered

Most PowerView® window coverings are battery-powered, so they are easy to install, operate and maintain.

Meet the PowerView® family.

System control

PowerView® Hub

The Hub connects to your WiFi router and is the centralised brain of the system.

PowerView® Repeater

The repeater extends the signal range when needed.

Your control

Pebble® and Surface Remote

With the click of a button you can operate one or all of your shades in your home.

PowerView® App

This App can be used like a remote control at home or away on your smartphone or tablet.

Pebble® and Surface Scene Controller

Working in concert with the PowerView® Hub and App, you can activate preprogrammed scenes directly.

As you wish. Choose your level of control.

Start with the basics.

Use the PowerView® Pebble® Remote - or the wall-mounted Surface Remote - to quickly adjust any single, powered window treatment or groups of shades with just a push of a button.

Upgrade to a full smart-home solution.

Say goodbye to lost remotes. Instead, conveniently control your window treatments from your tablet or smartphone. With the PowerView® App, you can send shades to specific positions with just the swipe of a finger.

Even better? Get the most from your smart shades by creating customised Scenes. Then, use the scheduling feature so your shades move automatically to your preferred positions. PowerView® does all the work for you - on the days and timing that perfectly fit your lifestyle.

Connect with other smart-home systems.

The PowerView® system is designed for compatibility with most home automation system technologies on the market today, as well as Apple® iOS and Android™ tablets and mobile devices to expand the function of your wireless home.

Please be sure to visit the PowerView® page at luxaflex.com for the latest information on compatible systems and devices.

The PowerView® App is available on Apple® iOS and Android™ mobile devices, and requires the PowerView Hub for operation. Apple is a trademark of Apple Inc., registered in the U.S. and other countries. HomeKit is a trademark of Apple Inc. PowerView® Pebble®

Meet the PowerView® Pebble®, the stylish handheld control and the entry point for the entire PowerView® system. With the Pebble® you can quickly adjust any single powered window covering or all the shades in a specific room, totally on your command. Enter a room and, like switching on a light, your shades operate your command with the stylish Pebble® available in 10 different colours. The Pebble® is the perfect union of form and function, both simply elegant and elegantly simple.

Lime Pebble® | White Remote

PowerView® Pebble® Remote features

- The brilliantly designed Pebble® Remote is ideal for room-centric control with ten pops of colour.
- Six separate 'Group' buttons to organize different groupings of products to your preferences (buttons 1 to 6).
- An ALL button that activates all Groups at once.
- Ability to set a ♥ FAVOURITE position for each Group.
- ▲ OPEN and ▼ CLOSE buttons for raising and lowering products.
- ↶ ↷ TILT control buttons for opening, closing, rotating vanes and slats.
- A ■ STOP button to adjust any shade to your perfect, preferred position.

Cobalt Pebble® | Black Scene Controller

PowerView® Pebble® Scene Controller features

- An OLED screen for displaying pre-selected scenes.
- Scroll between and activate scenes using the < LEFT and > RIGHT arrow buttons and SELECT.
- Two different ♥ FAVOURITE options allow for 1-button scene activation.
- Set up and updating is done using the PowerView® App.
- Surface Scene Controller easily mounts in key locations to control all the scenes in your home.
- You can easily place the scene controller in the Pebble®.

Technology at your service.

PowerView® Hub

Our elegantly designed Hub connects wirelessly to your home WiFi network. It's the central point of control for all your home's PowerView window treatments, storing your settings and activating your Scenes.

PowerView® Repeater

The Repeater is a small signal enhancer that discreetly plugs into almost any outlet to extend signal range and carry commands throughout your home. It also provides customized lighting day and night via its illumination feature.

Smart shades that simplify your life.

Imagine a world where window coverings anticipate your needs and adjust themselves automatically, creating the perfect room ambience, morning, noon and night.

That is the beauty of PowerView® Automation - just program PowerView® to move your window coverings to the exact position you want and then control and schedule them using the intuitive PowerView® App on your smartphone or tablet.

Available in an incredible range of sophisticated designs, PowerView® Automation creates a whole new world of beauty and convenience. With PowerView®, your window coverings will become such an essential part of the way you live, you will wonder how you ever lived without them.
