

Silhouette® Shades

Gentle ambient light with exclusive style

Luxaflex®

Light and vision control like no other

Silhouette® ClearView™ will change the way you see the world. A new design innovation, allows the flow of light and vision like never before. Almost invisible to the naked eye, the gossamer light fabric of our new Silhouette® ClearView™ Shades floats between solid vanes. So you can experience a sharp, uninterrupted view whilst still filtering brightness, glare and UV rays.

BY DESIGN

Giving even more design flexibility our new 50 mm vanes join our popular 75 mm option to allow you to balance style and function. 50 Mm vanes perfectly compliment the proportions of small to medium size windows. To flatter a large scale opening, choose the 75 mm vane, designed for larger window spans.

MATERIAL WORLD

Our diverse range offers extraordinary fabrics with sophisticated on-trend colours, subtle structures and textured forms for limitless design options.

NO COMPROMISING ON COMFORT

Maximising any available light throughout the day whilst also diffusing it's harshest elements, our specially engineered fabrics allow you to control the light and heat in your home.

DESIGNED ONLY FOR YOU

Our Luxaflex® experts treat every project as a blank sheet, addressing your home's unique qualities and challenges. And as we custom make every shade to your requirements, we ensure every budget, taste and functional preference is built into the final design.

ALL IN THE DETAILS

Our latest range includes new ways to elevate your design. Add a complimentary or contrasting finishing touch with a choice of profiles in black, white, cream or brushed aluminium for a seamless finish.

CARE - FROM START TO FINISH AND BEYOND

EASY LIVING

Our products are more than good looking. Our high-performance Silhouette® Shades are treated with an exclusive process that repels dust, dirt and stains, cutting back on maintenance and ensuring they look their best.

POWerview® AUTOMATION

Our award-winning smart home system operates with Apple Home Kit, Amazon Alexa, Google Home, Nest and many more, or as a standalone App or controller. You can use it to help wake you up, improve security or change the mood - automatically. With an intuitive digital interface and controllable from your smart device, your Luxaflex® Silhouette® Shades can now be part of your intelligent home.

SMARTCORD®

A unique innovation by Luxaflex®, our SmartCord® system uses a retractable cord that erases the need for dangling cords to clutter the look and tempt little fingers or curious pets. Your Silhouette® Shades will be exceptionally easy to use with super smooth operation.

LITERISE®

If you like to keep it simple, our LiteRise® cordless system is child safe and makes the raising, lowering and tilting Silhouette® Shades easier than ever.

DESIGNED WITH SAFETY IN MIND

We consider child safety a top priority. Making child safe products for homes is an integral part of our design philosophy. From effortless manual controls to fully smart home motorised systems, Luxaflex® offers many innovative lifting systems designed with safety, comfort and style in mind.

At Luxaflex® our window treatments start with great design. Light control, energy efficiency, and the convenience of motorisation are just some of the innovations that enhance the beauty of every room, every day – made to measure with a five-year guarantee.
